ICT TOOLS USED BY TEACHERS IN OFFLINE AND ONLINE MODE

OFFLINE MODE: Projector and laptops/computers are used by teachers for making Power Point Presentation. Audio-visual equipments are used for talks and lectures. Online Reference Material, e-Resources etc. are accessed from SWAYAM, Egyankosh, e-PG Pathshala, ILLL Material, jstor etc.

TEACHER AND STUDENTS USING COMPUTER

CONCEPT VISUALIZATION USING INTERNET AND PROJECTORS

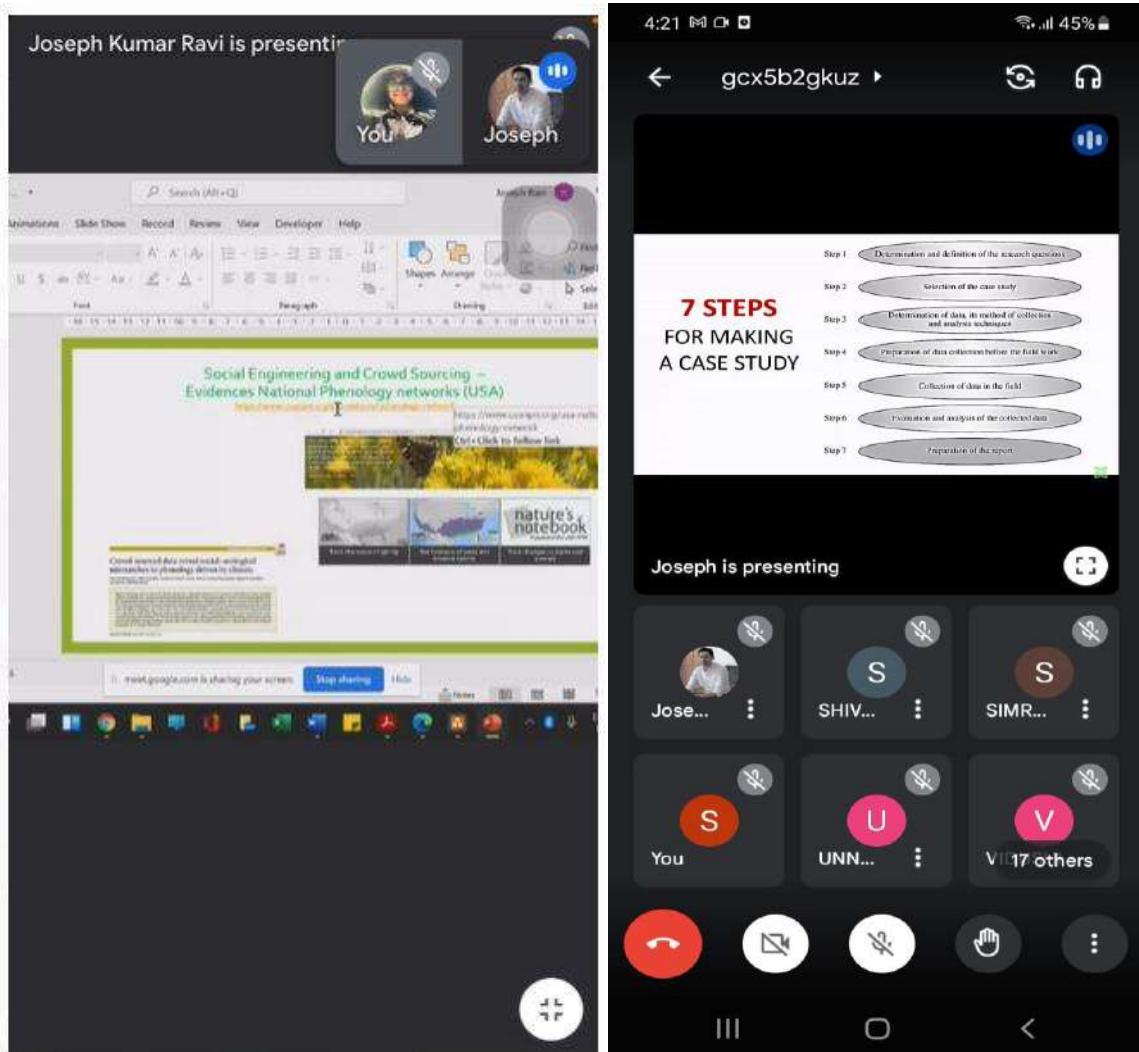

STUDENTS LEARN TO USE ICT FOR MAKING PRESENTATIONS

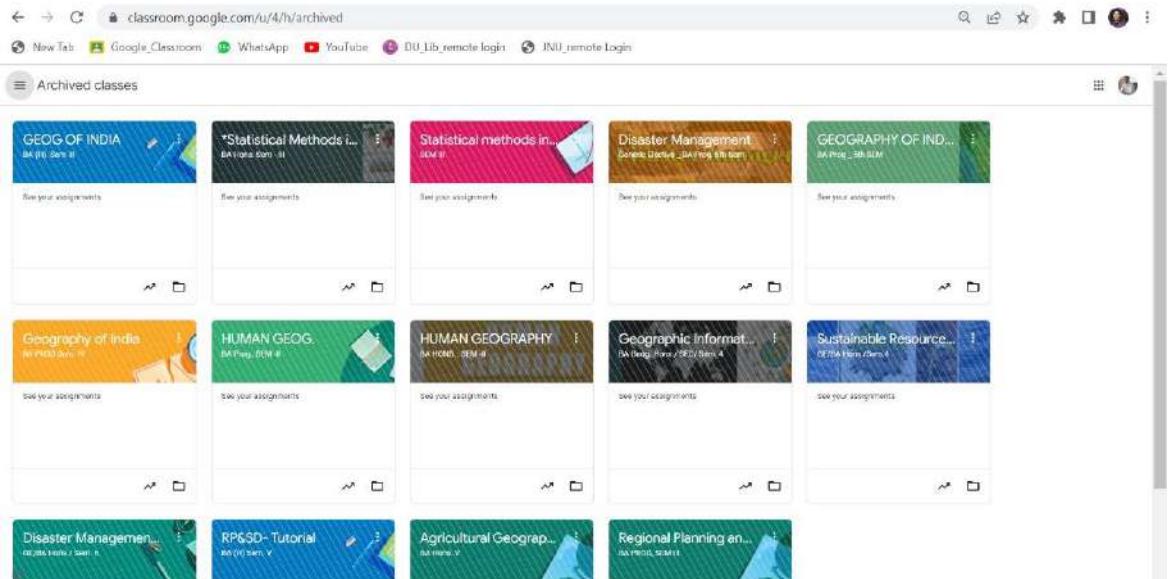

ONLINE MODE: For live and interactive classes the teachers use G-Suite (Google Workspace)-includes email addresses with institutional domain name, video and voice calls, collaborative documents, spreadsheets, presentations, calendars, digital board, storage etc. Teachers use these to plan and deliver lectures, share e-notes, reading material, e-books, YouTube content, tests assignments etc.

PPT SLIDES USED DURING ONLINE CLASS.

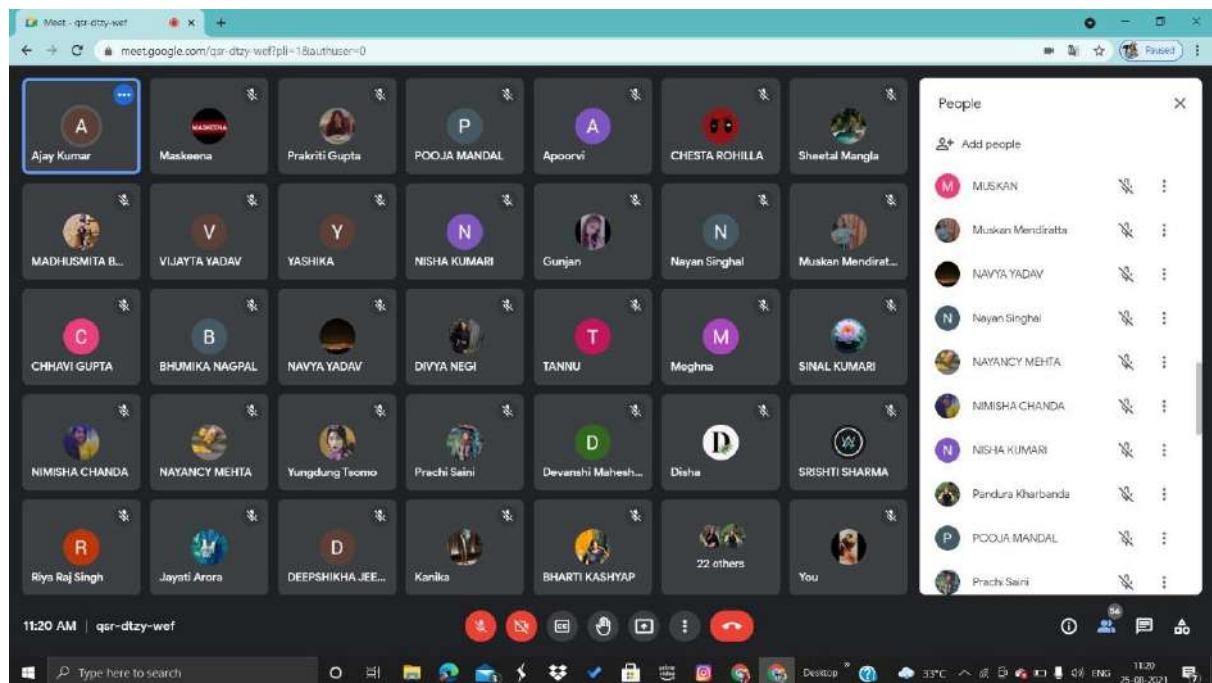

ORGANIZED CLASSES AND RESOURCES IN GOOGLE CLASSROOM

(ARCHIVED CLASSES; REPOSITORY OF LEARNING RESOURCES)

Monitoring Attendance and Regularity in the classes

NOTIFICATIONS AND ANNOUNCEMENTS TO THE STUDENTS IN GOOGLE CLASSROOM

The screenshot shows the Google Classroom Stream for the 'Sociology of Gender Aug-Dec 2020' class. At the top, there are three male and female gender icons. Below them, the class name 'Sociology of Gender Aug-Dec 2020' and 'B A Hons III sem' are displayed. The stream contains the following notifications:

- Shivanya Soni posted 'Bargaining with patriarchy- PPT' (Dec 2, 2020). It includes a 'Drive file' link labeled 'Unknown File'.
- Urna Sarkar Dutta posted a new material: 'Masculinity and Femininity' (Nov 27, 2020).
- Yusra Hakeem posted something (Nov 24, 2020).

A black banner at the bottom of the stream area says 'Class is archived. Restore it to add or edit anything.' with a 'Restore' button. Below the stream, there are three file attachments: 'Socio.zip', 'internal-Complaint.pdf', and 'Gender, work &....pptx'. On the far right, there is a 'Show all' button.

E-NOTES SHARED BY TEACHER

Coding

Having 'cleaned' the data, the next step is to code it. The method of coding is largely dictated by two considerations:

1. the way a variable has been measured (measurement scale) in your research instrument (e.g. if a response to a question is descriptive, categorical or quantitative);
2. the way you want to communicate the findings about a variable to your readers.

For coding, the first level of distinction is whether a set of data is qualitative or quantitative in nature. For qualitative data a further distinction is whether the information is descriptive in nature (e.g. a description of a service to a community, a case history) or is generated through discrete qualitative categories. For example, the following information about a respondent is in discrete qualitative categories: income – above average, average, below average; gender – male, female; religion – Christian, Hindu, Muslim, Buddhist, etc.; or attitude towards an issue – strongly favourable, favourable, uncertain, unfavourable, strongly unfavourable. Each of these variables is measured either on a nominal scale or an ordinal scale.

Some of them could also have been measured on a ratio scale or an interval scale. For example, income can be measured in dollars (ratio scale), or an attitude towards an issue can be measured on an interval or a ratio scale.

The way of coding depends upon the measurement scale used in the measurement of a variable and whether a question is open-ended or closed.

In addition, the types of statistical procedures that can be applied to a set of information to a large extent depend upon the measurement scale on which a

Having identified the main themes, there are three ways that you can deal with them: (1) you can examine verbatim responses and integrate them with the text of your report to either support or contradict your argument; (2) you can assign a code to each theme and count how frequently each has occurred; and (3) you can combine both methods to communicate your findings. This is your choice, and it is based on your impression of the preference of your readers.

For coding quantitative and qualitative data in quantitative studies you need to go through the following steps:

- Step I: developing a code book;
- Step II: pre-testing the code book;
- Step III: coding the data;
- Step IV: verifying the coded data.

Step I: A code book provides a set of rules for assigning numerical values to answers obtained from respondents. Example, lists some questions taken from a questionnaire used in a survey conducted by the author to ascertain the impact of occupational redeployment on an individual. The questions selected should be sufficient to serve as a prototype for developing a code book, as they cover the various issues involved in the process.

Step II: Pre-testing the code book

Once a code book is designed, it is important to pre-test it for any problems before you code your data. A pre-test involves selecting a few questionnaires/interview schedules and actually coding the responses to ascertain any problems in coding. It is possible that you may not have provided for some responses and therefore will be unable to code them. Change your Step III: Coding the data

E-ASSIGNMENTS AND TESTS ARE CONDUCTED REGULARLY FOR INTERNAL ASSESSMENT

TESTS AND ASSIGNMENTS

TESTS & ASSIGNMENTS

SEGMENT A - SUBJECTIVE test for the Unit 1 Due Feb 3, 3:30 PM

Posted Feb 3

TESTS ARE MEANS FOR TEACHERS TO KNOW HOW SHOULD THEY IMPROVE THE CLARITY OF CONCEPTS WHILE TEACHING!

26 Turned in | 4 Assigned

Dear all, read the instructions carefully.
The test is segmented into two sections.

Segment 2 - OBJECTIVE Questions (MCQ) - 4 Questions all of it compulsory. The google form can be found as a link attached.

Question for Segment A- SUBJECTIVE.. (time allocated - 20 minutes) Marks - 10

Question 1 - Discuss the Role of Field Study in the context of the nature of the Geographical Studies.

OR

SEGMENT B _ (OBJECTIVE)_ UNIT 1 Due Feb 3, 3:20 PM

ONLINE ASSIGNMENT SUBMISSION

The screenshot shows a list of student submissions for an assignment titled "Assignment 1". There are 52 total submissions, with 13 turned in and 10 graded. The submissions are listed in a grid format, each showing the student's name, the file type (e.g., PDF, Word document), and the status (Turned in or Graded). The interface includes navigation bars at the top and left, and a search bar at the top right.

ASSESSMENT OF BOOK REVIEW SUBMITTED BY STUDENTS

The screenshot shows a Google Classroom page for the "Sociology of Gender Aug-Dec 2020" class. The assignment titled "Book review on Seeing like a feminist, Nivedita Menon" has been submitted by 57 students. The interface displays a grid of student names and their submission status. A message at the bottom indicates the class is archived.

Draw.io (interactive drawing tool)- Dept. of Geography

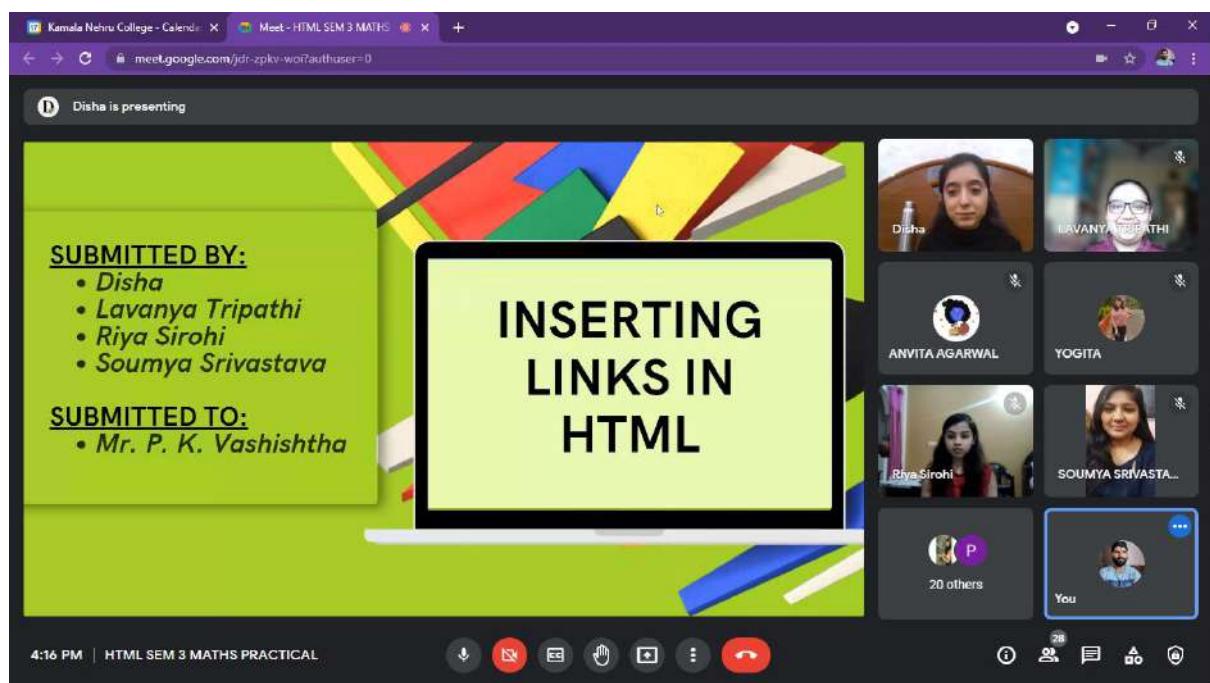

Adobe Photoshop (Dept. of Journalism)

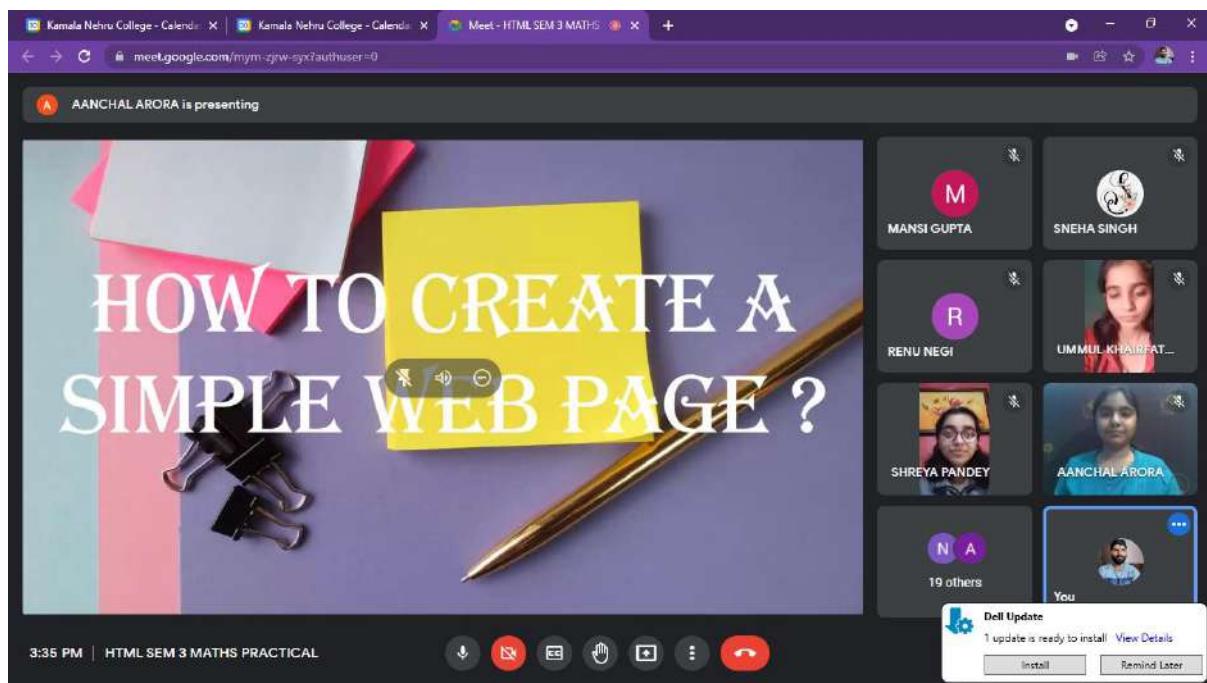

Adobe Photoshop (Dept. of Journalism)

HTML –Department of Mathematics

Creation of Webpages- Dept.of Mathematics

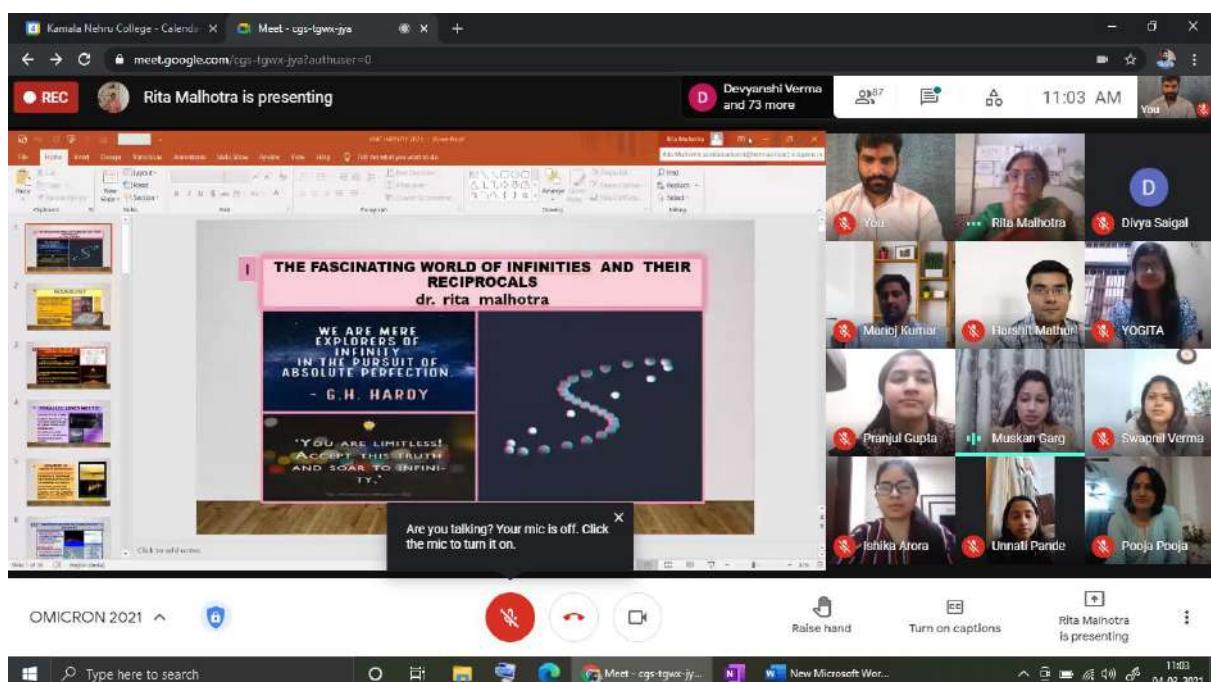

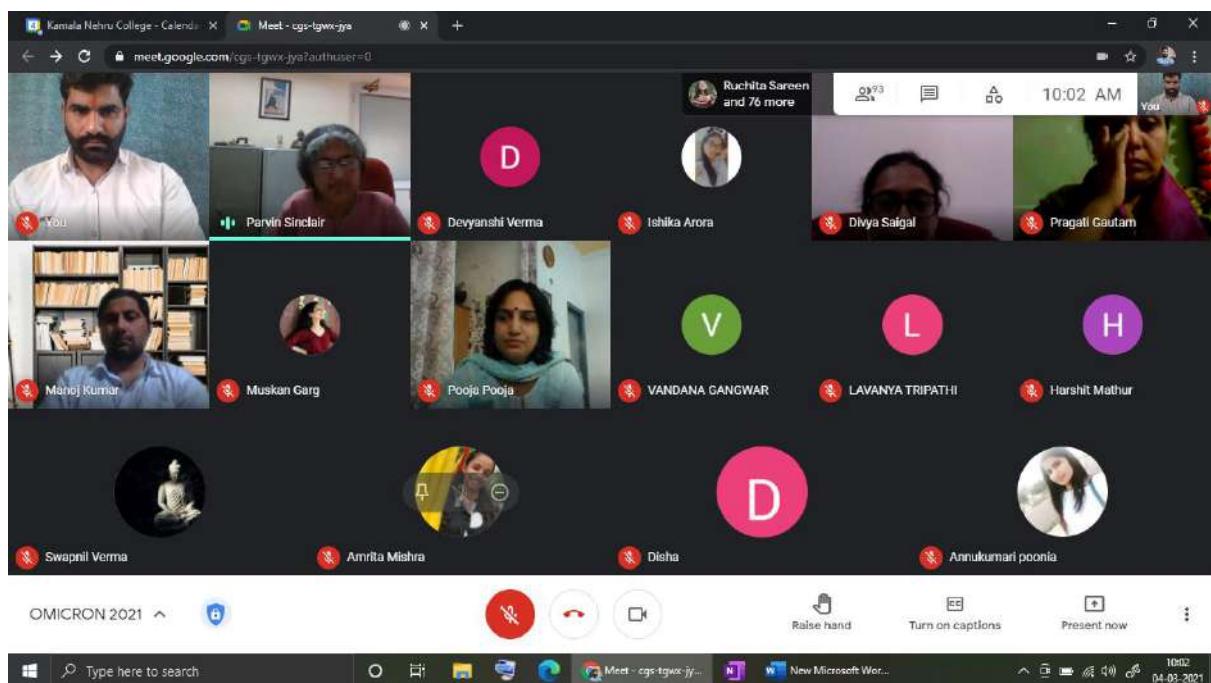

Art Integration in Presentation: Dept. of Psychology

A screenshot of a Microsoft PowerPoint presentation. The main slide features a hand-drawn comic strip about alcohol-related disorders. The comic shows two men in hats. One says, 'one bottle of alcohol, please'. The other replies, '(how many frames does have in this comic strip?) FOUR'. Below the comic, the title 'INTRODUCTION OF ALCOHOL RELATED DISORDERS - AARUSHI ARORA' is displayed. To the left, a vertical list of slide thumbnails shows various other slides related to alcohol-related disorders. The bottom of the screen shows the Windows taskbar with icons for search, messaging, and various applications.

LIVE AND INTERACTIVE LECTURES, TALKS, CONFERENCES AND WEBINARS

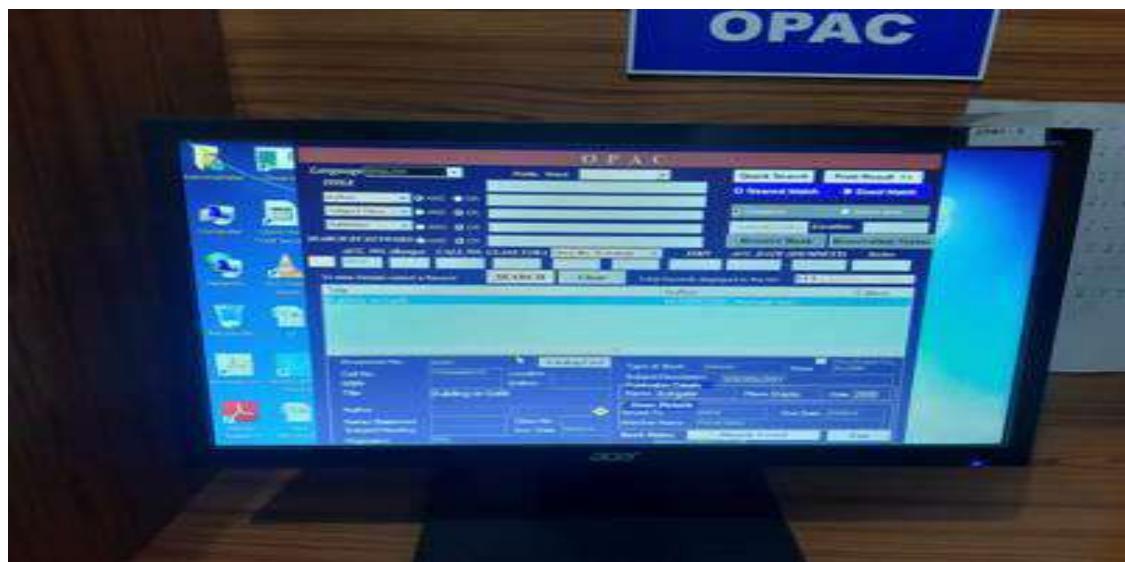

The College has subscribed to Zoom Online Platform for holding the above activities which teachers use effectively for the promotion of teaching-learning.

PARTICIPANTS IN A WEBINAR

LIBRARY & e-RESOURCES CENTRE

The College has well-equipped infrastructure for facilitating the use of ICT for teaching and learning.
