4 Responsibilities of collaborating colleges .

I- The faculty members of both the colleges mutually exchange the students and teach them as per syllabus only

II- There will be no remunerations involved for either faculty besides their regular salary .

III- The choice of topic to be taught will rest upon the teacher and mutually agreed upon by both the colleges

IV- Though there is no binding of number of classes to be taken for the students under exchange program but it would be desirable that it should not be fragmented and incomplete

V- The exchange program does not entail the internal assessment /test to be added /credited at the parent institution .However, the syllabus covered would be taken into the account .

VI- The classes will be held over and above the workload assigned to the faculty of both the colleges

VII- Such classes should not clash with the regular time table of the faculty .

VIII- Certificates will be awarded to the faculty of both the colleges engaged in teaching under Student - Faculty exchange program certified by the Principals of both the colleges at the end of respective semester specifying the number of classes taken .

5 General Provisions

A. **Amendments:** Either party may request changes to this MOU. STATEMENT OF PROPOSAL

1. This collaboration is based on a proposal for the design and implementation of Indoor Navigation Assistance Solution to be implemented at Kamala Nehru College Campus, University of Delhi
2. This research project would be based on a pilot installation and study to be carried out in the Ground, First and Second floors of the Main building at Kamala Nehru College.
3. From the elementary survey at various venues (i.e. hospitals, public buildings and academic institutions), it has been found that wayfinding is a challenge for people with disabilities, especially visual disability. Inadequate and non-strategic placement of signage also adds to this wayfinding challenge. It is further complicated for visitors who are not familiar with the local language and have limited visual sensory abilities.
4. We believe a technology-based solution using smartphones would be able to address this challenge for people with a visual disability (PVDs) and will also be useful to mainstream users.
5. An effective indoor wayfinding system depends on formulation of key components that includes: visual accessibility, actual and ideal path, decision points identification, strategic inclusion of essential information over map, cognitive map modeling of the facility.
6. In this project, comprehensive digital mapping will include field survey, area division, information sourcing, mapping and its validation. Further, localization using bluetooth beacons to support real time indoor navigation is planned.
7. The key initial objective of this collaboration would be to understand the existing area division, flow patterns, navigation/wayfinding challenges as well as accessibility issues. The aim would be to implement a unique solution that can address the wayfinding challenges. Further, a gradual evolution eliminates the need for major adaptation and retraining requirements of major stakeholders.

IMPLEMENTATION PLAN

1. Total duration of the project will be 12 months. The project will be implemented in two phases. **Phase one** will include creating an accessible digital map of the college campus venue. Duration of phase 1 will be 2 months. This includes division of area/zone based on their functioning like "Academic, Administrative, Classroom, Cafeteria and Lab-etc", field survey, information sourcing, validation and annotation over existing venue map.
2. **Phase two** will include identification of locations and installation of bluetooth beacons to support real time navigation. Combined with the annotated digital map in phase 1, this would help solve the independent and real time navigation challenge of all types of visitors keeping PVDs as the central focus. The duration for stage two will be 4 months after completion of phase 1. This phase will also include testing, refinement and validation of the system.
3. Final validation reports will be generated including the inputs and feedback from users/students and the college staff after successful implementation of the navigation system. Assitech Lab will extend the support including service, maintenance and upgrades for 6 months after completion of phase 2.

4. After completion of a total of 12 months, the existing installation and services can be maintained by any third party like Raised Line Foundation (A non-for-profit startup from Assistech Lab, IIT Delhi) or the locally trained staff/students at Kamala Nehru College.

ROLE OF PARTIES

1. The contribution of the project would include site survey, training and mapping and implementation of real time navigation system as mentioned previously.

Role of Assistech Lab, IIT Delhi,

- Provide and resolve any type of technical query related to project
- Training students/faculty of Kamala Nehru College on field survey and annotation tool
- Installation testing of beacon based real time navigation
- Testing and validation report for annotation and navigation application

Role of Kamala Nehru College,

- Students of geography may be involved in field surveys & digital mapping as interns/trainees
- Testing and validation report for the navigation application
- Local publicity, outreach and awareness of the project,

Note: Kamala Nehru college will assign a local representative and interested student on this project to deliver on the items listed in its role.

FINANCIAL IMPLICATIONS

The overall proposed cost estimate for the project is as mentioned below,

Type	Size/Nos	Unit Price	Cost is Rs.	Remarks
Research & prototype design				
Venue mapping service	10,000 sq. m.	@ Rs. 15/sqm.	1,50,000	Includes hosting and maintenance, & security of map data for 1 year
Real Time localization service	60 nodes	@Rs 2500 /node	1,50,000	Beacon purchase, installation, calibration and localization
Contingency cost			50,000	Travel and other
Sub Total cost			3,50,000	
IRD (Institute) overhead (10%)*			35,000	Research overhead cost
Total project cost			3,85,000	

*IRD overhead cost is as per institute norms.

The total cost of the project : Rs.3, 85,000 (Three Lakhs eighty five thousand). To initiate the project activity, 30 % of project funding should be released in advance, 50% after successful completion of phase I and remaining 20 % after the completion of project.

AB

The Second and Third parties shall be jointly referred to as 'Partner institutes' and all the three parties shall be jointly referred to as 'Parties'.

Recognizing the India's dream to be a global superpower in the coming decades depends primarily on enhancing the skills of its human resources to meet global demands and increasing innovations and start-ups to fuel the economy. The roles that the universities, colleges and other educational institutions have to play is crucial in this context

Realising that alone, each Party will require investment of considerable amount of its resources for the developmental activities. However, being a developing country, it would be in the best interest to maximise the utilization of existing resources available with the Universities/ academic institutions by sharing the same, through academic collaboration and cooperation amongst them, for augmenting the human resources.

Therefore, the Parties witnesseth as under, which defines the framework for the cooperation of the Partner institutes in the following sections -

- HKSH
21/12/2021
1. The Parties are agreeing to partner under V2Scheme for the purpose of enhancing the mutual growth and development of each other.
 2. The academic bonding is based on the principle of mutual respect, cooperation and sharing between the two parties as equal partners.
 3. The Second Party shall extend its academic resources and facilities available for the V2Scheme to the Third Party with an aim to be catalyst for the faster growth of the latter. The Third Party shall share its academic resources with the Second Party to the extent possible, on a collaborative basis in the fields of academics, education and research.
 4. The areas of cooperation between the two Partner institutes shall include the following:
 - 4.1. Organize online/ offline lectures, workshops, trainings, meetings and other such programmes aimed at capacity building of the faculty members of both the Partner institutes. To the extent possible, visits of faculties will be facilitated for this purpose.
 - 4.2. The teachers and researchers of the both the Partner institutes may be engaged in Joint research activities and be co-investigators in the research programmes submitted to funding agencies.
 - 4.3. Joint research publication by teachers/ researchers of the Partner institutes shall be encouraged.

ESTD. 1964

17. This MoU shall be executed in triplicate with each Party keeping an original.

IN WITNESS WHEREOF the Parties hereto, through their duly authorized representatives, have signed and executed this Memorandum of Understanding on the day, month and year mentioned herein.
