

Report 2013-14

The Mathematics Department organized a two-hour comprehensive workshop on *Wolfram Mathematica 9* on October 7 2013, to familiarize the students with various features of *Mathematica 9*. The guest speaker, Mr. Ashutosh Ranjan, inaugurated the workshop by interacting with the students and asking them various questions on the topic. Later, he gave a brief description about different tools and features of the software. He also took some questions from the practical syllabi of all the three years and solved it simultaneously with students. He also suggested it being keyboard friendly and shared some tips and tricks to make practicals quick and fun. The teachers too learnt about the numerous characteristics of *Mathematica 9* and became aware regarding how to teach topics on *Mathematica* discreetly. The workshop ended with a doubt clearing session.
