

Report 2012-13

Faculty Convener: Dr.Kalpana Bhakuni

Student convener: Lipica Buttan

SNAPSHOTS! The Photography society of KNC is not just about pictures, it's more than what we look at, it's about stories. Each picture that you see with your eyes and hold in your hands has a special memory. And to keep these memories flowing we display some of the best pictures of our members fortnightly in the college. These are at times theme based or simply based on the member's free will. This not just gives them an opportunity to display their talents, but boosts their confidence too.

Apart from this the society with the combined efforts of our convener Dr. Kalpana Bhakuni and the members led by Kartika Rana also held an Exhibition-cum-Photography competition which was judged by one of the best photographers himself, Mr. V.C. Pramod which was followed by a session with him. The session was extremely interactive and light and with his added experience and amazing facts about photography made it all the more exciting. Snapshots also functions through its Facebook page making it convenient for the members and giving them an easy access to share, learn, suggest and grow their passion!

Snapshots Society of the college offers a platform to the students to share their passion for photography. It is not about teaching the art of photography but developing the appreciation of photography. Those who have an eye for details, sensitivity for the things around and a creative bent of mind can be good photographers. Even a single shot of photography can speak volumes. In Snapshots Society the members meet regularly, share their photos on selected themes, discuss the thoughts involved in them and get new ideas from each other. Snapshots Society invites some well recognised professionals in photography to inspire the members by holding workshops. It also provides very good opportunity to the students who have their own collection of photos to put up solo exhibitions at the level of college.
