

IQAC Action Plan 2024-25

- In order to increase efficiency, productivity and transparency in record keeping, attendance, IA and CA components , a new software will be introduced for the college.
- The faculty and staff will be sensitized towards gender issues.
- Steps will be taken to implement the fourth year according to NEP 2020.
- Infrastructure will be created to accommodate the fourth year of teaching and meet academic requirements.
- Student awareness about research will be increased.
- Skill development amongst students will be promoted through collaborations.
- Promotions will be made a continuous process for administrative and faculty empowerment.
- Feedback will be collected from students, faculty, alumni and employers.
- Environmental sustainability will also be a focus area for the IQAC. Steps will be taken to promote that at an institutional level.
- Capacity building programs will be organized for all stakeholders.
- Collaboration will be encouraged with other reputed institutions and industry to give wide exposure to faculty and students.
- To contribute towards society and community, events will be organized and planned.
